PROFESSIONAL EXPERIENCE**Sustainability & Strategy Consulting | Peoples Natural Gas | Pittsburgh, PA**

Sep 2024 - June 2025

- Conducted structured problem-solving and competitive benchmarking across 5+ utilities, applying quantitative analysis and financial modeling to evaluate market position and develop data-driven recommendations for strategic growth in sustainable energy markets.
- Led feasibility and market analysis supporting Essential Utilities' \$26M investment in a 1,400-acre data center project with an 18 MGD water facility and a 944 MW natural gas-powered plant featuring battery storage and grid integration for reliable, sustainable energy delivery.
- Developed a strategic playbook to attract hyperscale data centers to Western Pennsylvania, benchmarking fiber, energy mix, and tax incentives against Virginia and delivering SWOT and policy insights adopted by senior leadership.
- Partnered with external collaborators, including H Quest and the University of Pittsburgh, to develop and analyze clean energy strategy models for RNG, hydrogen blending, and turquoise hydrogen, synthesizing findings into client-ready insights that supported long-term goals.

Marketing & Research Consulting Fellow | Client: Ductmate Industries | Pittsburgh, PA

Sep 2024 - Nov 2024

- Conducted quantitative and qualitative market research for DMI's HVAC sealant division, designing surveys for distributors and regional sales heads across the U.S. and applying hypothesis-driven analysis using Python, R, and Tableau to evaluate customer insights, product feedback, and emerging market needs, uncovering actionable findings that informed product strategy and client-facing marketing initiatives.
- Conceptualized and developed an AI-enabled interactive webpage to enhance customer engagement and streamline inquiries. The webpage allowed users to experiment with custom sealant combinations based on parameters such as *viscosity*, *colour* etc improving inquiry efficiency and customer satisfaction by an estimated 25% while driving a 15% increase in product inquiries.
- Introduced innovative marketing strategies including a product demonstration video showcasing sealant applications and a two-day distributor workshop to educate partners on technical product advantages. These initiatives strengthened customer relationships, improved brand credibility, and supported long-term B2B growth.

Strategy & Sponsorship Consultant | University of Pittsburgh – Bridge Program | Pittsburgh, PA

July 2024 - Aug 2024

- Led end-to-end marketing and sponsorship strategy for the Bridge Program, building a sponsorship playbook and financial models that unlocked \$50K+ in funding opportunities; created tailored sales collateral, and multi-channel promotional campaigns with workflow automations that improve outreach efficiency, engagement, and program visibility among sponsors and student participants.

Market Research Analyst Intern | GuardAI – Himalayan Quantitative Solutions | Pittsburgh, USA

May 2024 - Aug 2024

- Led market research and competitive benchmarking across 100+ AI startups and GenAI chatbots, analyzing LLM personalization, cybersecurity risks, and vulnerability detection, and translated insights into LinkedIn marketing strategies and go-to-market initiatives that elevated GuardAI's brand visibility and positioned it as a leader in AI safety and trust.

Marketing and CRM Analyst | Jai Udit Suitings Pvt Ltd | Rajasthan, India

Aug 2020 – July 2023

- Collaborated cross-functionally with marketing, sales, and operations teams to execute multi-channel campaigns across Google Ads, and HubSpot CRM, driving 40% YoY growth in new customers and improving brand visibility through data-driven targeting.
- Owned campaign analytics and performance reporting, tracking KPIs such as CTR, CAC, ROI, and retention, and leveraging insights to optimize budgets and maximize marketing ROI across digital and print channels.
- Built automated dashboards and forecasting models in Tableau and Excel, connecting spend to outcomes, improving quarterly forecast accuracy, and enabling faster, evidence-based decision-making for leadership.
- Enhanced CRM segmentation and personalized outreach, increasing email engagement by 25% and strengthening customer retention through insight-led communication strategies and continuous performance monitoring.

Academic Competitions**BTC Data Visualization Competition (1st runner up), Katz Business School, Pittsburgh, Pennsylvania**

April 2025

- Analyzed a cybersecurity threats dataset of over 1M datapoints in a 30-minute challenge and developed a 3-slide executive presentation using data visualization to highlight key patterns, vulnerabilities, and prevention strategies through impactful visual storytelling.

TL Saaty Decision-Making Hackathon, Katz Business School, Pittsburgh, Pennsylvania

April 2025

- Developed a multi-criteria decision model that evaluated benefits, opportunities, costs, and risks, and translated the insights into a client-ready report presented to academic judges and industry experts, showcasing strong stakeholder communication skills.
